UNIVERSAL X
— RADIOLOGIA

VERSATILITY IN A COMPACT SIZE FOR ANY BUDGET

Universal X Plus Advanced, compact, competitive and versatile system.

From analog to digital solutions, with auto-positioning for under-table and thorax positions, editable anatomical programs and automatic collimation which guarantees the minimum patient dose and maximizes the usability of the system.

From 32kW to 80kW at 150KV allows reaching any type of patient in a design adapted for confined spaces.

The system provides maximum flexibility and clinical productivity in general trauma, thorax, urology, abdomen and emergency applications with the possibility of performing both PA and lateral views with or without a stretcher and obliques.

EASY MOTORIZED POSITIONING

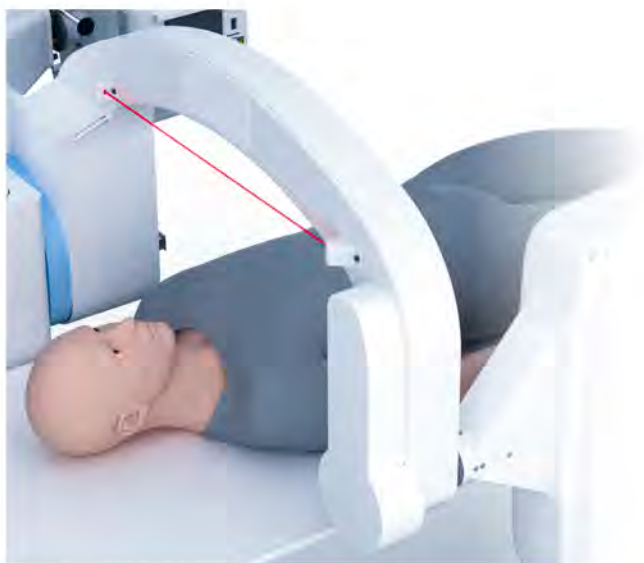

Fully motorized system in all its movements: vertical, rotary, variable SID, also including detector rotation for oblique projections.

It allows you to streamline the patient workflow and reduce the cost of the exam.

ANTI-COLLISION/SAFE POSITIONING

The **Universal X Plus Advanced** system has two infrared beams, a bumper and a dynamic motion sensor to guarantee long-lasting durability and avoiding any damage to the patient and / or the system.

OPTIMIZED FLOW. AVOID UNNECESSARY PATIENT DISPLACEMENTS

With touch screen, all controls are arranged for workflow optimization, quick access to exposure parameters (KVp, mA, mAs and time) and auto-positioning.

PRIMO S - STATE -OF-THE-ART SOFTWARE WITH STITCHING

- Optimized workflow
- Easy worklists management and study opening.
- Quick access to exposure parameters and anatomical programs.
- Advanced tools for image post-processing.
- Hospital network image exportation with access to Raw images.
- Stitching for column and full legs.

THE PERFECT BALANCE BETWEEN HIGH IMAGE QUALITY, LOWER DOSE AND INCREASED WORKFLOW.
